27. Description of Accident (include equipment involved, the exact location in the mine, and status of rescue and recovery operations):
 On May 28, 2015 at approximately 11:55 a.m., a 45 year old foreman received fatal crushing injuries when he was pinned between the rear of a road grader and front of a loaded tractor and trailer. The tractor and trailer was transporting a highwall miner to the job site and encountered a steep incline that could not pull on its on power. A road grader was brought to assist the tractor up the incline. The foreman was between the two machines connecting a chain when the grader rolled back crushing the victim.

The information provided in this notice is based on preliminary data ONLY and does not represent final determinations regarding the nature of the incident or conclusions regarding the cause of the accident.
